# Oulu 5G activities

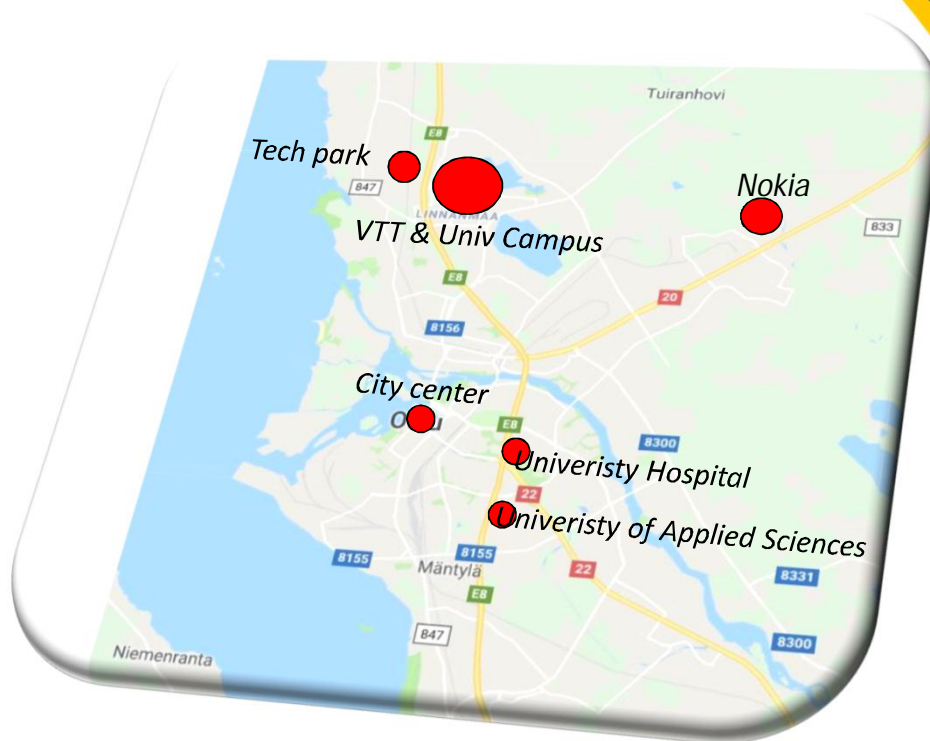

5G development in Nokia Oulu campus, in collaboration with Oulu University & VTT, ICT companies in Oulu region and business verticals

- § 5G commercially launched
- § 5G manufacturing in Oulu
- § Open test and experimentation networks up and running.
- § Oulu University Hospital
- § Oulu University campus
- § VTT campus
- § Vertical deployments

Radio coverage in the urban area

# Real 5G up and running

5G NR (<6GHz) NSA integrated

5G NR

800MHz @26/28GHz 10Gbps

Hybrid Beamformer

NB-IoT/LTE-M1 opened

LTE small cells

WiFi, BLE, LoRa

Own SIM

# 5G TestNetwork - Co-creation Platform

## Wireless Connectivity

Numerous frequency bands & unlicensed wireless access

## Testing Devices & Solutions

Diverse sensor network and virtualized functions

## Devices and Experts

Test session support. Device loan

## 5GTN Community

Technical updates and news, ecosystem cooperation

## Vertical use cases

Care, eHealth, Conscious Factory, 5G Media, Self-driving car, Energy

NVR @ xx GHz ....THz

700 MHz

2.1 GHz

2.3 GHz

2.6 GHz

3.5 GHz

26 ... 28 GHz

5GTN

LTE

IoT

5G PoC

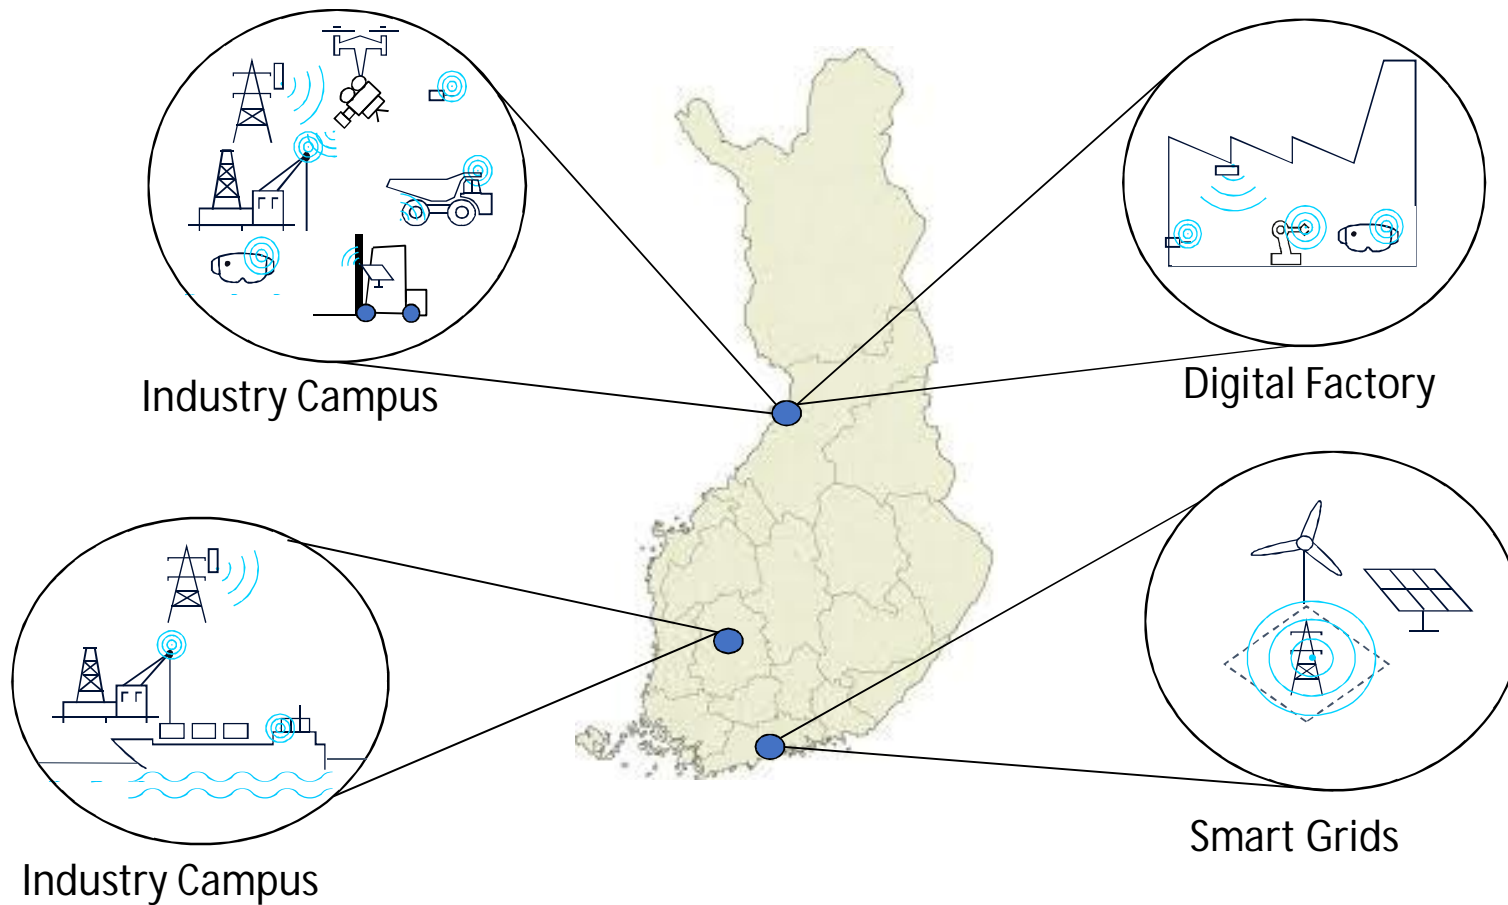

5G NR

5G+

# 5G VIIMA – 5G Vertical Integrated Industry for Massive Automation

## Four locations for 5G Industry Research and Experiments

### 5G VIIMA:

- 7 academic
  - 22 industry
  - 3 other parties
- 13 industry projects

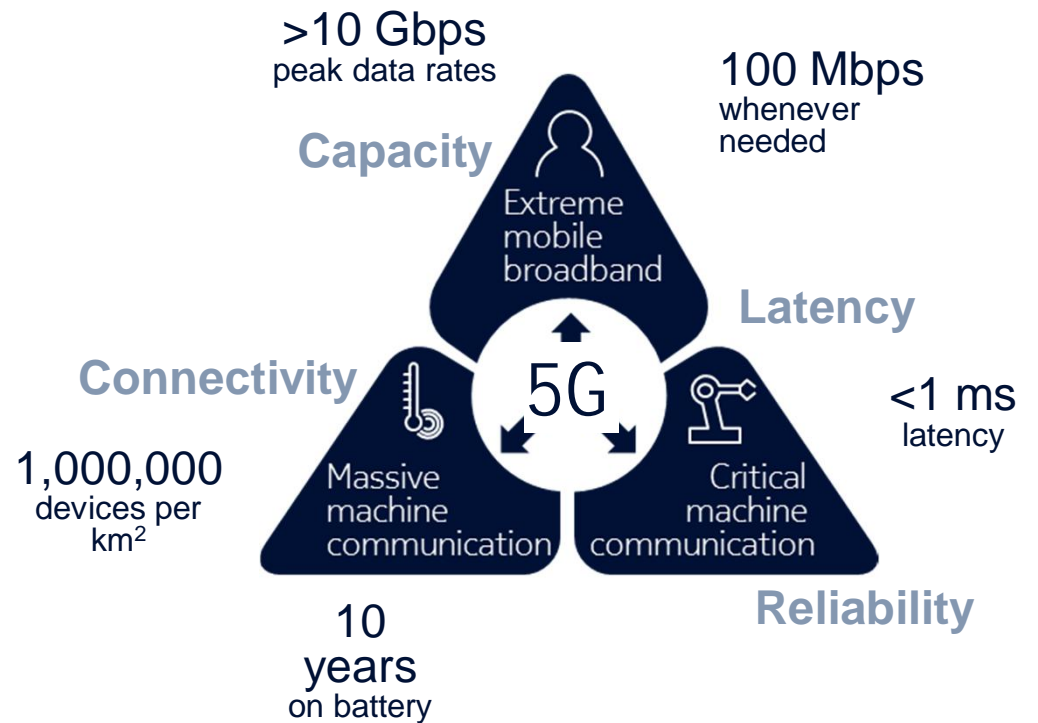

Total Volume 16M€

- Industry 10M€
- Academy 6M€

Funded by  
Business Finland

## Push for Critical 5G Network Technology Enablers...

- Live 5G & 4G - Interaction between local and wide-area network
- 5G-Modems integrated to machines
- edge cloud for service creation
- Network reliability to fulfil industry requirements (URLLC)
- Guaranteed quality per network user and/or service with slicing
- Accurate (<1m) indoor and outdoor positioning

## ...Together With Relevant Industry Assets

## To Solve Critical Harbour Services

- Location tracking of moving vehicles
- Navigation for visiting trucks
- Weather condition information with sensors and/or cameras
- Cargo identification and tracking
- Cranes collecting cargo data using camera and/or sensors
- Warning solution for moving vehicles
- Autonomous drones and maintenance vehicles
- Remote control of cargo handling equipment
- Remote control of work machines with AV excellence

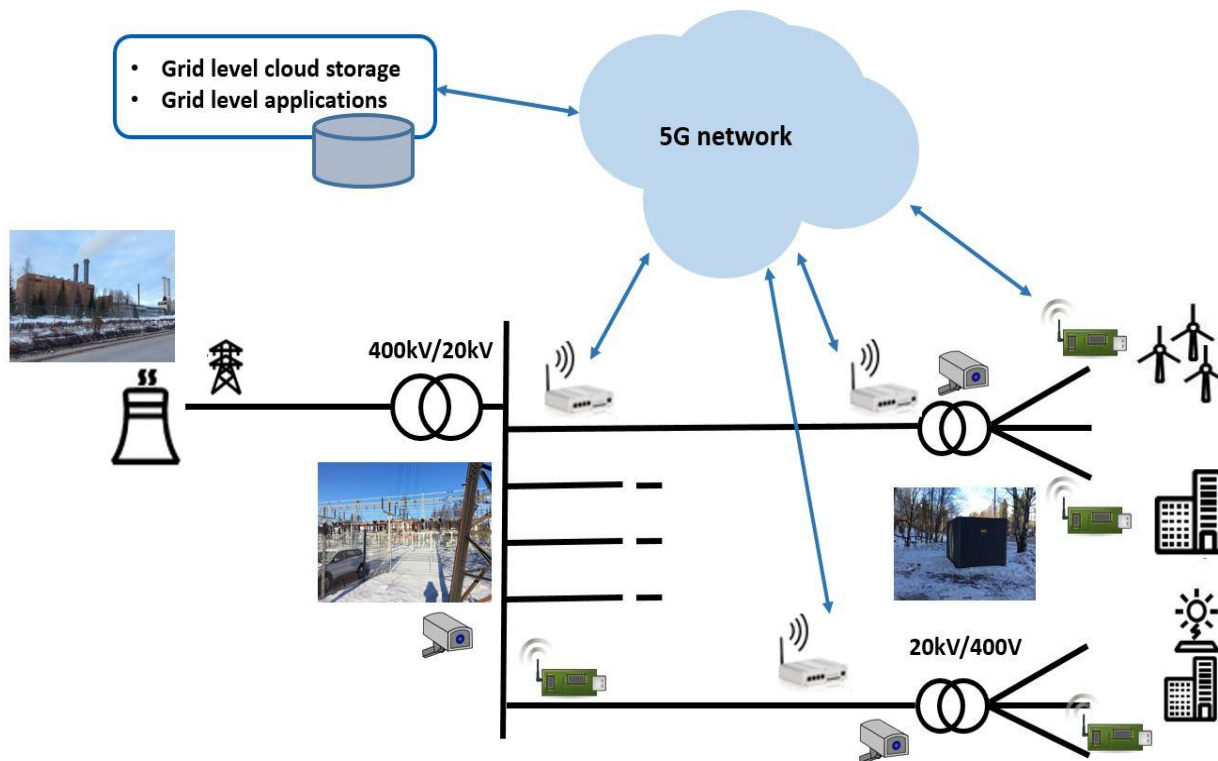

## Piloting 5G Promises in a Factory

- Gathering and identifying process data from real-time video streams
- Wireless sensing in industrial environment
- Secure and Industry-relevant solution with edge processing
- Remote management with haptic response
- Asset tracking utilizing high accuracy indoor positioning
- Virtualization of physical resources
- Smart assets

## And to Address Challenges of the Future Electric Power System

- Protected 5G solution
- Multipoint measurements for reliability and availability
- Security components
- AI data processing and fault location components
